

GSTARCAD TRAINING

Course Summary

Duration: 2 Days (9:30am – 4:30pm)	Course Fee: SGD 315 (excl. GST)
Venue: 51 Bukit Batok Crescent, #08-41 Unity Centre. Singapore 658077	
Provider: ACAD Pte Ltd	Course Type: Instructor In-led Classroom

Course Description

GstarCAD Training (2-Day Course)

This 2-day course is aimed for students who are new to GstarCAD Software. The main objective is to enable participants to use basic commands to create, edit, annotate and plotting which are necessary for drawing 2D design and drafting. A recognized training certification will be presented after completion of the course as proof of their attendance to an accredited GstarCAD training.

Upon completion of this course, participants will:

- Understand the GstarCAD workspace and user interface.
- Use GstarCAD's drafting tools for creating 2D geometry.
- Organize information in drawings utilizing layers and blocks.
- Annotate drawings with text and dimensions.
- Output drawings using multiple printing and plotting options.

GSTARCAD TRAINING CONTENTS

1. Introduction to GstarCAD software
 - Understanding the User Interface
 - Customizing the Drawing Environment
2. Managing Drawing Files
 - Creating and Opening Drawing Files
 - Managing Sheet Sets
3. Controlling the Drawing Views
 - Navigating a Drawing
 - Working with Drawing Views
4. Precision Tools and the Properties of Drawings
 - Object Snap and Tracking
 - Working with Grids
5. Working with Layers
6. Drawing Tools
 - Arcs, Polygons, Polylines, Divide, Measure
7. Notes and Labels
8. Dimensions
 - Using Linear, Radial and Angular Dimension
9. Block, Attribute and Reference
 - Using Block Attribute
 - Working with Xrefs
10. Working with Hatching
11. Layout, Plot and Publish Drawings
12. Working with Dynamic Blocks
