Course Description

AutoCAD Advanced Level Training (3-Day Course)

This 3-day course is aimed for students to explore the advanced concepts of 2D tools using AutoCAD. The main objective is to enable participants to use advance commands to create 2D drawings. Students are advised to have basic 2D drawing skills of AutoCAD software prior to this course. A recognized training certification will be presented after completion of the course as proof of their attendance to an accredited AutoCAD training.
