Provider: ACAD Pte Ltd	

Course Description

Revit Architecture Fundamental Training (3-Day Course)

This 3-day course is aimed at beginners who are new to Revit software. During the course, you will be taught how to create a full 3D architectural project model including walls, doors, windows, components, floors, ceilings, roofs, stairs and the basic tools that majority of architectural users require. You'll be familiarized on how to navigate the user interface in by using basic drawing, editing, and viewing tools.
